A photograph of two women sitting at a table in a modern office or cafe. The woman on the left is wearing a yellow sweater and is looking at a laptop. The woman on the right is wearing a white t-shirt and is looking at a notebook. They are both silhouetted against a large window in the background. A large green arrow graphic is overlaid on the left side of the image, pointing upwards and to the right.

Talk is our primary
form of action and
interaction.

How would your organisation perform if every communication were more effective?

With VoicePrint:

- **Quickly acquire improved personal and interpersonal communication & influencing competencies**
- **Identify key enablers & inhibitors of performance in individuals & teams**
- **Let teams & individuals set clear action priorities for their learning & development**
- **Get the most immediately useful personal development tool**

VoicePrint as a distinctive diagnostic and developmental tool

As well as being a model of competence, VoicePrint is a diagnostic tool designed to raise individuals' and groups' awareness about how they currently use talk, the impact that they have when they do, and how they might use it to better effect.

“The most rewarding and useful piece of development I’ve ever done.”

Clinical Director

VoicePrint

Why Talk Matters

Talking effectively is the single most important competence that any of us can possess. It is central to how we interact with others, how we think, how we get to grips with our problems and opportunities and how we manage our own resourcefulness.

VoicePrint unlocks our understanding of talk, allowing us to use it more effectively than ever before. VoicePrint makes an immediate, practical difference in the quality and impact of how people perform and equips you to deal with your organisational challenges more productively & effectively

Proven Results

VoicePrint practitioners have delivered improvements for organisations across all sectors.

“Nothing has given me more insight into my own behaviour & its impact on other people than VoicePrint”

Manager - Healthcare

“The difference in behaviour in our leadership team is astonishing & the quality of their outputs has improved noticeably. We’re thrilled”

Manager - Healthcare

VoicePrint

A half day workshop exploring your VoicePrint profiles is enough to produce an average 30% improvement in the quality of people's listening and understanding of each other.

That's just the start of the benefits.

What does VoicePrint do?

VoicePrint diagnostics show how an individual communicates both with others and in their self-talk.

It unlocks the awareness to understand the modes of voice they use most and the ones they use least, plus how those change under pressure.
